Manifold Block Kirby Morgan® w/Scuba Adapter

Art.Nr.: KM300145

Manifold Block Kirby Morgan® w/Scuba Adapter 9/16.

If you use an EXO-26 or other full face mask for surface-supplied diving, a manifold block which has a one way valve (also referred to as a “non-return” valve) and provides for correct attachment of the umbilical is essential. The emergency gas supply valve on the manifold block controls the flow of the bailout supply.

Specification

Length: cm 0
