Dive Helmet Kirby Morgan® 37

Art.Nr.: KM500051

Dive Helmet Kirby Morgan® 37, w/MWP Connector, Quad Valve.

The Kirby Morgan® 37 continues the tradition of providing the highest quality and superior performance. It comes standard with the Quad-Valve™ exhaust system, which has less breathing resistance than the older
single valve exhaust while providing an extremely dry hat. This system is recommended for diving in biologically
contaminated water. Our SuperFlow® 350 regulator is a proven design that provides excellent breathing
characteristics over a wide range of depths.

The Kirby Morgan® 37 is one of the most popular designs in the world.

CE marked.
