Dive Helmet Kirby Morgan® 77, Stainless Steel

Art.Nr.: KM500091

Dive Helmet Kirby Morgan® 77, Stainless Steel, w/MWP connector, Rex® Quad Valve®.

The Dive Helmet Kirby Morgan® 77 features the all stainless steel REX regulator, as well as a stainless sideblock, helmet ring, handle, and other key components.

The REX® Exhaust System is standard on this helmet. It is recommended for all air and mixed gas umbilical diving where maximum breathing performance is required.

The advanced regulator pod on this helmet allows it to be outfitted with other Kirby Morgan regulators, including the SuperFlow® 350 or the all stainless steel 455 balanced regulator.

Not CE marked.
