Breathing Apparatus Dräger PSS 7000 c/w Bodyguard

Art.Nr.: 3356551

SCBA (self-contained breathing apparatus) DRÄGER PSS 7000, EN 137: 2006 Type 2, 0802. vfdb carrying shell made of carbon fiber reinforced material with adjustable shoulder yoke and swiveling and rotating lap belt can be individually adjusted to the size of the device support and ensures optimum weight distribution. Medium and high pressure hoses are protected in the supporting shell and prevent snagging in use or when donning and doffing. The non-slip anti-slip surface of the harness ensures that it stays in place and the SCBA rests securely against the body.
The handy medium pressure coupling allows the regulator to solve quickly, even with gloves, a patented quick release on the pressure reducer adapter at the shoulder and lap straps allow easy assembly and disassembly without tools.
Pressure reducing valve with air delivery> 1000 l / min, enough for 2 people, optionally equipped with an adapter with check valve for a 2nd regulator or hose supply. ATEX approval IN 1 / II 1 GD IIC T6 in conjunction with full face masks Panorama Nova with Triplex visor, IN 1 / II 1 GD IIB T6 in conjunction with other Dräger SCBA-masks.
DrägerMan Bodyguard 7000. Automatic functional test, enter a user ID on the personal identity card (RFID), indication of the cylinder pressure digital and analog. First low pressure warning by repeating flashes, independent second low pressure warning by mechanical warning whistle, display the residual useful life until you hear the low pressure warning. Permanent position flashing light, automatic alarm for no motion, manual emergency alarm. Data recording (data logger), the data can be read out via an interface on a PC, about 4 kg.
Basic unit with Bodyguard 7000 and bottle strap for single cylinders, including power supply and electronics for optional Head-Up Display
