Base Layer VIKING XT250, black (Set)

Art.Nr.: HA200026

Base Layer VIKING XT250, black (Set)
Top includes thumb loops, and leggings have a high waistband and uniquely designed foot pockets, without socks.
Originally developed for NASA, the XT250 fabric traps a very thin layer of air next to the skin, keeping the wearer drier and more comfortable.

material
Outside: Durable abrasion resistant nylon jersey
Inside: Pill resistant velour

The base layer is machine washable. Even when wet, the XT250 retains a significant degree of its thermal performance, so that the diver can continue his dive in relative comfort.

Available sizes: S, M, L, XL, XXL, XXXL.

Specification

Volume: cc 0
